

**Title:** Adaptive Lighting REACH Statement of Compliance

To Our Valued Customers,

The European Union's REACH Directive (EC 1907/2006) on the Registration, Evaluation, Authorisation and Restriction of Chemicals, aims to protect human health and the environment from risks from chemicals. This Directive came into force on 1 June 2007.

Adaptive Lighting Ltd. is classed as a downstream user, which means we work with chemicals but do not manufacture them, they are purchased from a reputable supplier. Therefore we are not required to register our products.

Adaptive Lighting Ltd. contacted its suppliers to ensure that all chemicals have been registered and requested that they assess the potential presence of Substances of Very High Concern (SVHC) in any of their products. The current SVHC has not been added or used in the manufacture of Adaptive Lighting Ltd products.

Please visit the ECHA link below for the official Candidate List,  
which was updated on the 27 June 2018:

<https://echa.europa.eu/candidate-list-table>

Adaptive Lighting will continue to comply with any further updates to the European Union's REACH Directive.

If you have any questions, please feel free to contact us at [info@adaptivelighting.ie](mailto:info@adaptivelighting.ie)

Sincerely,

Debbie Watson
